

Video compression, publication, distribution and presentation with a simple drag and drop. Navicast makes it easy for organizations to manage their own professional, ad-free and independent internet-TV service and reach out to viewers all over the world. Easy enough for kids to use, yet powerful enough to meet the needs of multinational media houses.

Custom integration

Create your own video publication workflows, integrate with your own CMS or other web publication tools.

Navicast Studio

Fully automated video publication workflow. Compression, publication, distribution and presentation with a simple drag and drop.
